KOMMURI PRATAP REDDY INSTITUTE OF TECHNOLOGY

Teaching Methods Implemented for Effective Teaching Learning Process

Academic Year:2019-20	Branch:CSE	Year/ Semester:II/I
Name of the Faculty: G.Sujatha	Name of the Subject: OOPS through C++	

Teaching Method: **Google Class Room**

Google introduced a new online application called Google Classroom, a technology in the classroom app designed to provide a single dashboard to unify instructors' use of other Google apps. It is a free online learning platform. Google Classroom offers several benefits for students and teachers. Google Classroom can be accessed from any computer via Google Chrome or from any mobile device regardless of platform. All files uploaded by teachers and students are stored in a Classroom folder on Google Drive. Users can access Classroom anytime, anywhere. Students no longer have to worry about crashed computers or hungrydogs.

Google Classroom's purpose is to facilitate paperless communication between teachers and students and streamline educational workflow. Classroom allows teachers to create classes, post assignments, organize folders, and view work in real-time. Students will have an Exposure to an Online Learning Platform. Google Classroom can help students become and stay engaged in the learning process.
