

Teaching Methods Implemented for Effective Teaching Learning Process

Academic Year:2021-22	Branch:CSE	Year/ Semester:
Name of the Faculty: E.SamathaSree	Name of the Subject: Cryptography & Network Security	IV-I

Teaching Method:

Classroom Discussion

Classroom teaching and learning is a complex, multi-layered and social experience. Many things happen at the same time and the students and teacher must interpret and process these events with considerable rapidity.

Teaching is not a one-way transmission of information for students. The teacher plays an extremely important role in establishing a meaningful classroom environment for students. It is the social and psychological activities and responses of each student that determines what he or she learns.
