

Submission Guidelines

We invite researchers, academicians, and industry experts to submit their original abstracts to the **ICF²TEM'26**. This international forum aims to foster global collaboration and showcase the breakthrough developments in engineering, technology & management. All submissions will be peer reviewed by our International/National Technical Program Committee based on originality, technical depth, and relevance to the field. Selected abstracts will be invited for full paper submission and inclusion in the official ISBN indexed conference proceedings, providing a permanent record of the conference's scholarly impact. A maximum of four authors in each full length paper is allowed.

All the full length papers should follow IEEE template in MS Word or Latex.

EAPCET CODE: KPRT

EAPCET CODE: KPRC

About the College

Kommuri Pratap Reddy Institute of Technology (KPRIT) and KPRIT College of Engineering (KPRITCOE), sponsored by the Kommuri Pratap Reddy Educational Society (KPRES), were established in the year 2008 and 2010 respectively. Both the institutions accredited by NAAC & NBA and Conferred the Autonomous status by UGC. Since from the inception, the Institutions are providing excellent technical education to young aspirants and thereby producing new generation of thinkers, innovators and planners to the society. The college is situated in a serene, lush green, eco-friendly environmental campus extending in 12 Acres at Ghanpur Village, Ghatkesar Mandal, Hyderabad, Telangana State. The programs run by the institutions ensures high quality of academic standards, excellence in teaching-learning inline with OBE and NEP 2020.

About the Conference

ICF²TEM'26 is a prestigious multidisciplinary International Conference organized by the Group of Institutions of KPRES. This conference serves as a vibrant platform bringing together leading scientists, engineers, technologists, business leaders, policymakers, and academicians from across the world. Participants will have the opportunity to present cutting edge research, exchange innovative ideas, and explore future-ready solutions.

ICF²TEM'26 integrates technical excellence with strategic, economic, and social perspectives to foster innovation in emerging domains such as Industry 4.0, Sustainability, and Artificial Intelligence. By encouraging interdisciplinary dialogue, the conference aims to accelerate impactful research and practical solutions for global challenges. It also provides a dynamic environment for intellectual engagement, global networking, and meaningful collaboration, offering valuable insights into transformative trends shaping industries and societies worldwide.

Plagiarism Policy

All the submitted papers will be reviewed by the technical committee of the conference (including similarity index check).
